- Also, candidates can edit and delete the added record in their profile.

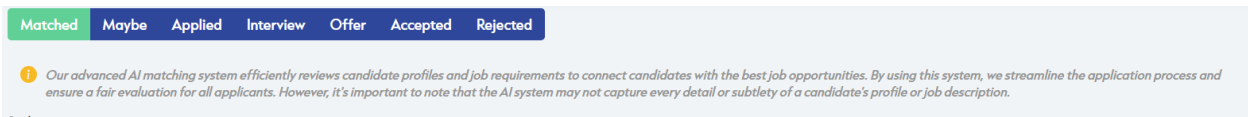

- In the resume section candidates also Build their own resume and download it.

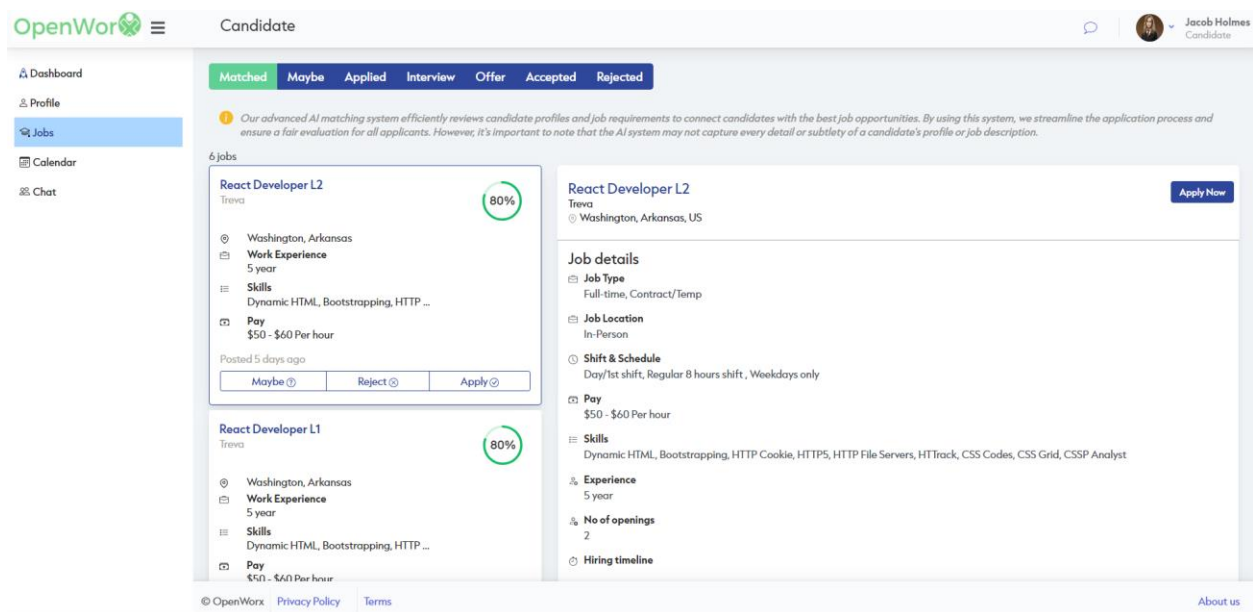

• Jobs –

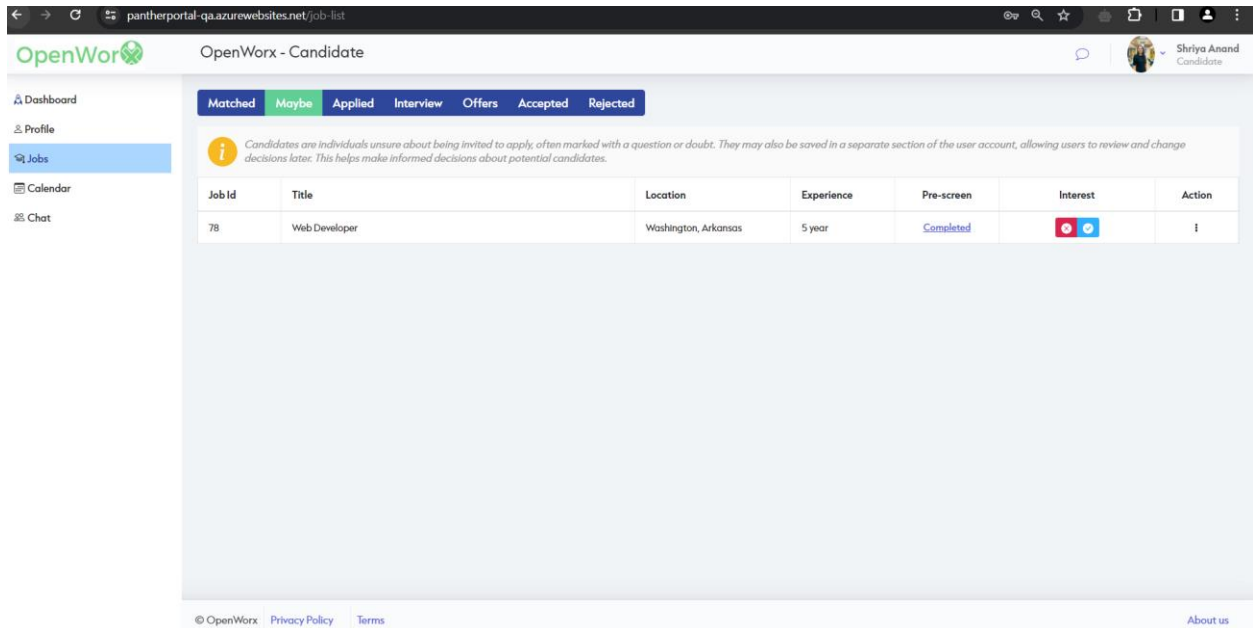

In the Jobs section, there are multiple tabs representing different job statuses. Clicking on each tab reveals detailed information associated with that specific status.

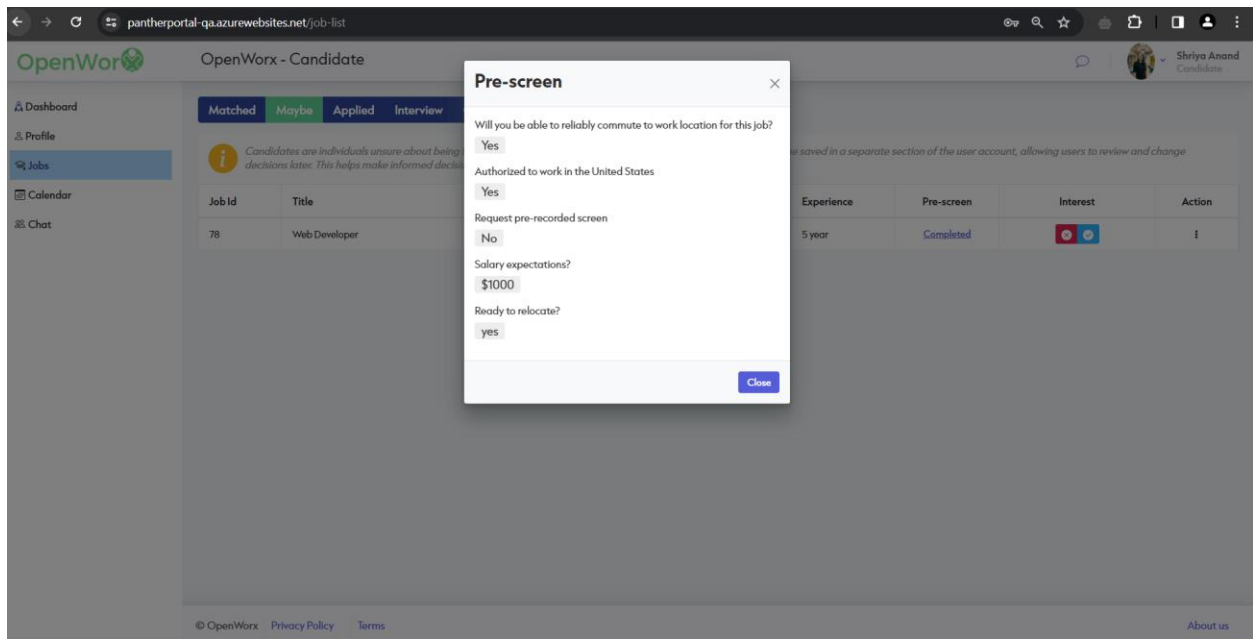

- **Matched Tab** - After adding all the details to the profile screen candidates can see the matched jobs through AIML according to their skills, title, experience, and location.
 - Candidates can Apply for the job by clicking on the Apply Now button and the Apply icon after the record should be moved to the applied tab.
 - The job moved to the Maybe tab while the candidate clicked on the Maybe icon or button.
 - The job moved to the Rejected tab while the candidate clicked on the Reject icon or button.

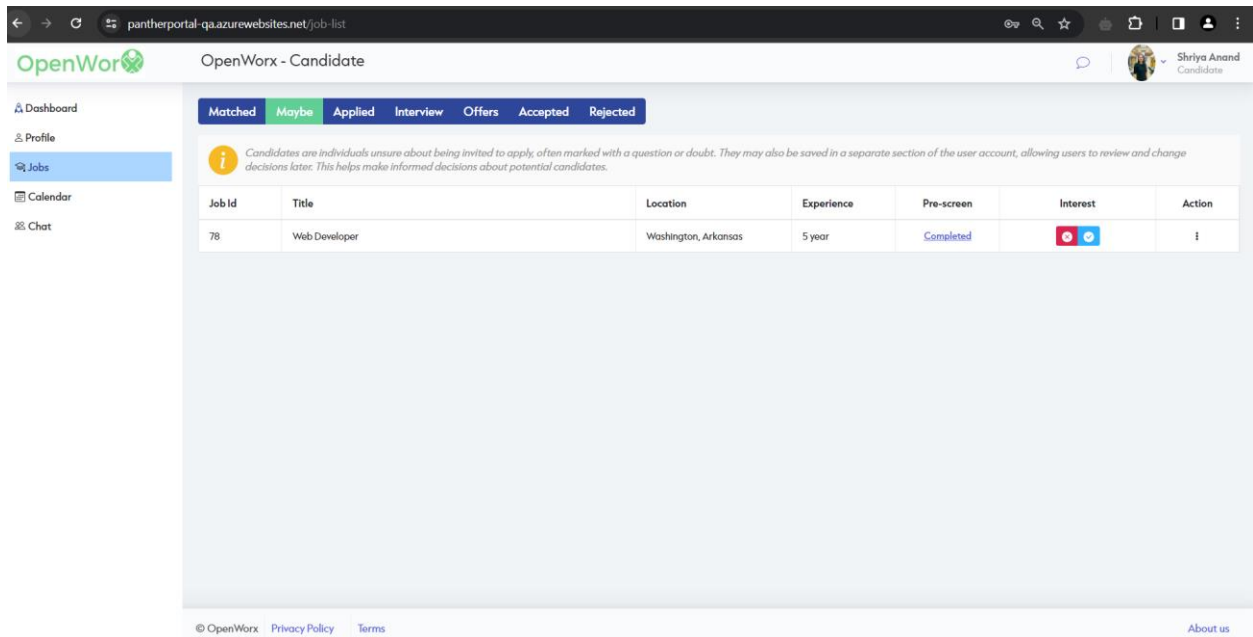

- **Maybe Tab** - Candidates are individuals unsure about being invited to apply, often marked with a question or doubt. They may also be saved in a separate section of the user account, allowing users to review and change decisions later. This helps make informed decisions about potential candidates.

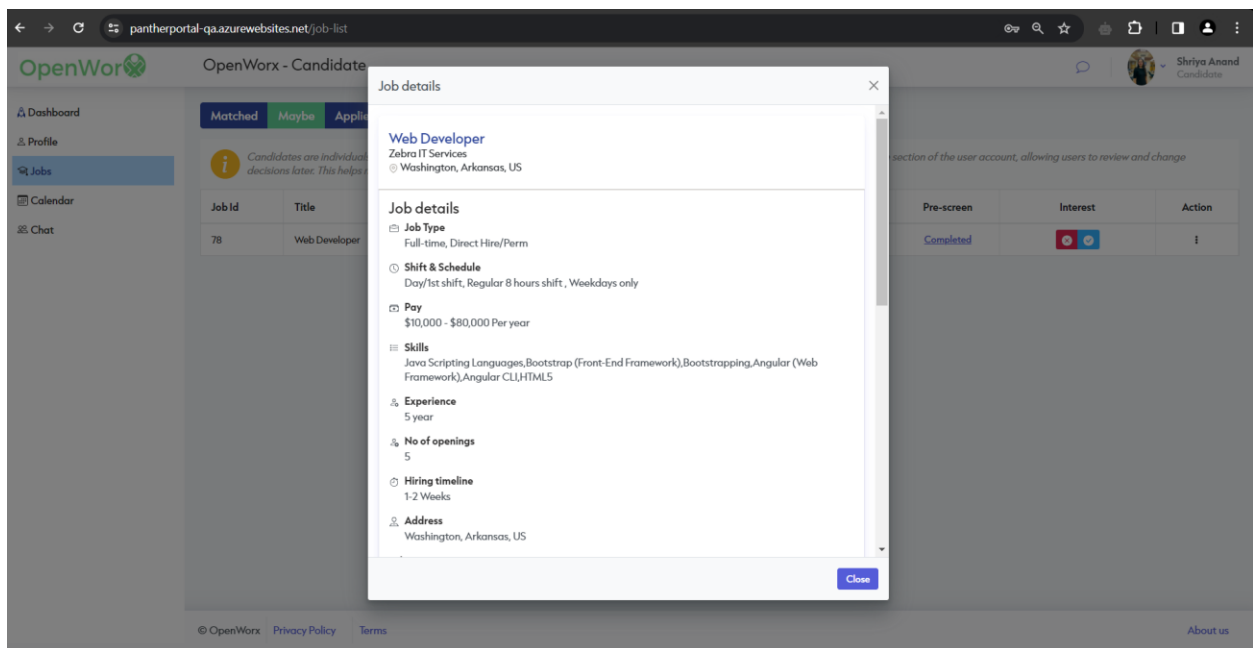

- In the **pre-screens column** or section the candidate can answer those questions created by the customer while the job is posted.

- In the **interest column** candidate can **reject** or **apply** for the job while rejecting the job the job is moved to the rejected tab and while applying the job is moved to the applied tab.

- While clicking in the Action column the candidate can see the whole job details.

- **Applied Tab** - Applied candidates are those who have submitted their application for a job through the platform. They are stored in a separate section of the user account, allowing users to track their application status, contact them, or reject them.
 - In the **pre-screens column** or section the candidate can answer those questions created by the customer while the job is posted.

The screenshot shows the OpenWorx Candidate interface. A 'Pre-screen' modal is open, displaying the following questions and options:

- Ready to relocate?
- Salary expectations?
- Request pre-recorded screen
 - ☐ Yes ☐ No
- Authorized to work in the United States
 - ☐ Yes ☐ No
- Will you be able to reliably commute to work location for this job?
 - ☐ Yes ☐ No

A 'Save' button is located at the bottom right of the modal. In the background, a table lists job applications with columns: Job Id, Title, Experience, Pre-screen, Interest, and Action.

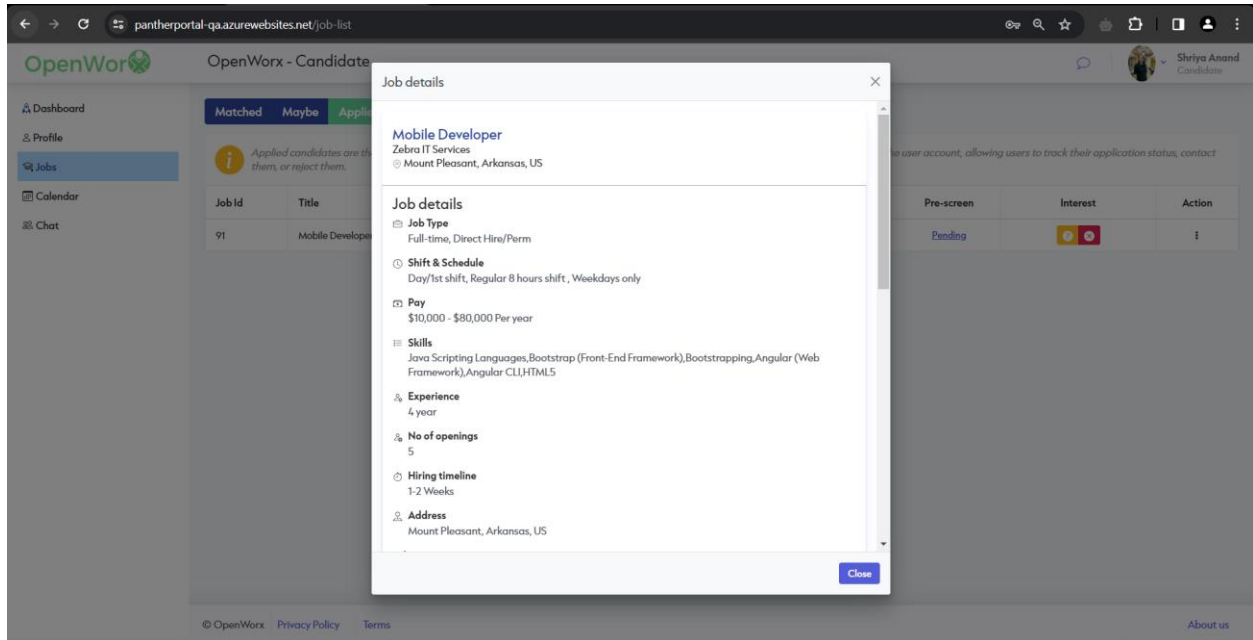

Job Id	Title	Experience	Pre-screen	Interest	Action
91	Mobile Developer	4 year	Pending		

- In the **interest column** candidate can maybe or reject the job while clicking the reject button or icon the job is moved to the rejected tab.

The screenshot shows the OpenWorx Candidate interface with the 'Rejected' tab selected. The table below lists the rejected job applications:

Job Id	Title	Location	Experience	Pre-screen	Interest	Action
91	Mobile Developer	Mount Pleasant, Arkansas	4 year	Pending		

- While clicking the Action column the candidate can see the whole job details.

- **Interview Tab** - Scheduled interview candidates are selected for an interview and have a scheduled date and time. They move to the next stage of the hiring process, where skills are evaluated. These candidates are stored in a separate section of the user account, where users can view their interview details and prepare for the meeting. access them and decide whether to apply or not.
 - After the candidate applies for the job the customer will create an interview for the candidate and after that, the record should be displayed in the interview tab.
