- Also, candidates can edit and delete the added record in their profile.

The screenshot shows the OpenWorX Candidate profile page. A modal titled "Add/Edit Skill Details" is open. The modal contains a "Skills" section with a search bar and a list of skills. The "Selected skill" is "React Native" and the "Experience level" is "2 years". Below this, there is a section "Add any of these popular skills" with buttons for JIRA, Customer Service, MySQL, Hand Tools, Landscape Maintenance, Vehicle Maintenance, Low Voltage, Equipment Repair, and Order Picking. The modal has "Save" and "Close" buttons at the bottom right.

The screenshot shows the OpenWorX Candidate profile page. A modal titled "Add/Edit Work Experience" is open. The modal contains fields for "Job title", "City, State", "Country", "Company", "From" (month and year), "To" (month and year), and "Job description". There is a checkbox for "Currently working". The modal has "Save" and "Close" buttons at the bottom right. The "Job description" field has a character count "0/500".

- In the resume section candidates also Build their own resume and download it.

• Jobs –

In the Jobs section, there are multiple tabs representing different job statuses. Clicking on each tab reveals detailed information associated with that specific status.

- **Matched Tab** - After adding all the details to the profile screen candidates can see the matched jobs through AIML according to their skills, title, experience, and location.
 - Candidates can Apply for the job by clicking on the Apply Now button and the Apply icon after the record should be moved to the applied tab.
 - The job moved to the Maybe tab while the candidate clicked on the Maybe icon or button.
 - The job moved to the Declined tab while the candidate clicked on the Decline icon or button.

- **Maybe Tab** - Candidates are individuals unsure about being invited to apply, often marked with a question or doubt. They may also be saved in a separate section of the user account, allowing users to review and change decisions later. This helps make informed decisions about potential candidates.
